SHARING THE GOSPEL OF LIFE

GRIFFIN WACKER

5th Year
Support Crew Missionary
From Cullman, Alabama

"One day a colleague was extremely late for work...hours late. I knew something had to be up for her to be as late as she was. She found out she was pregnant and was taking the morning to process a lot of thoughts and emotions. It was most certainly unplanned. She told me **she had thought about abortion for a split second.** But then, she thought about me, and **all the times I had spoken about Biking for Babies, and pregnancy resource centers, and the Culture of Life, and about the human life that is inside of the womb.** She told me that because of all those conversations, **there was no way she could go through with it.** She had to have the baby. I had to excuse myself to go to the restroom. To absolutely bawl my eyes out. I have never been so humbled in my entire life, **when God decided to use my witness to save a life.**"

SUFFERING FOR THE SAKE OF OTHERS

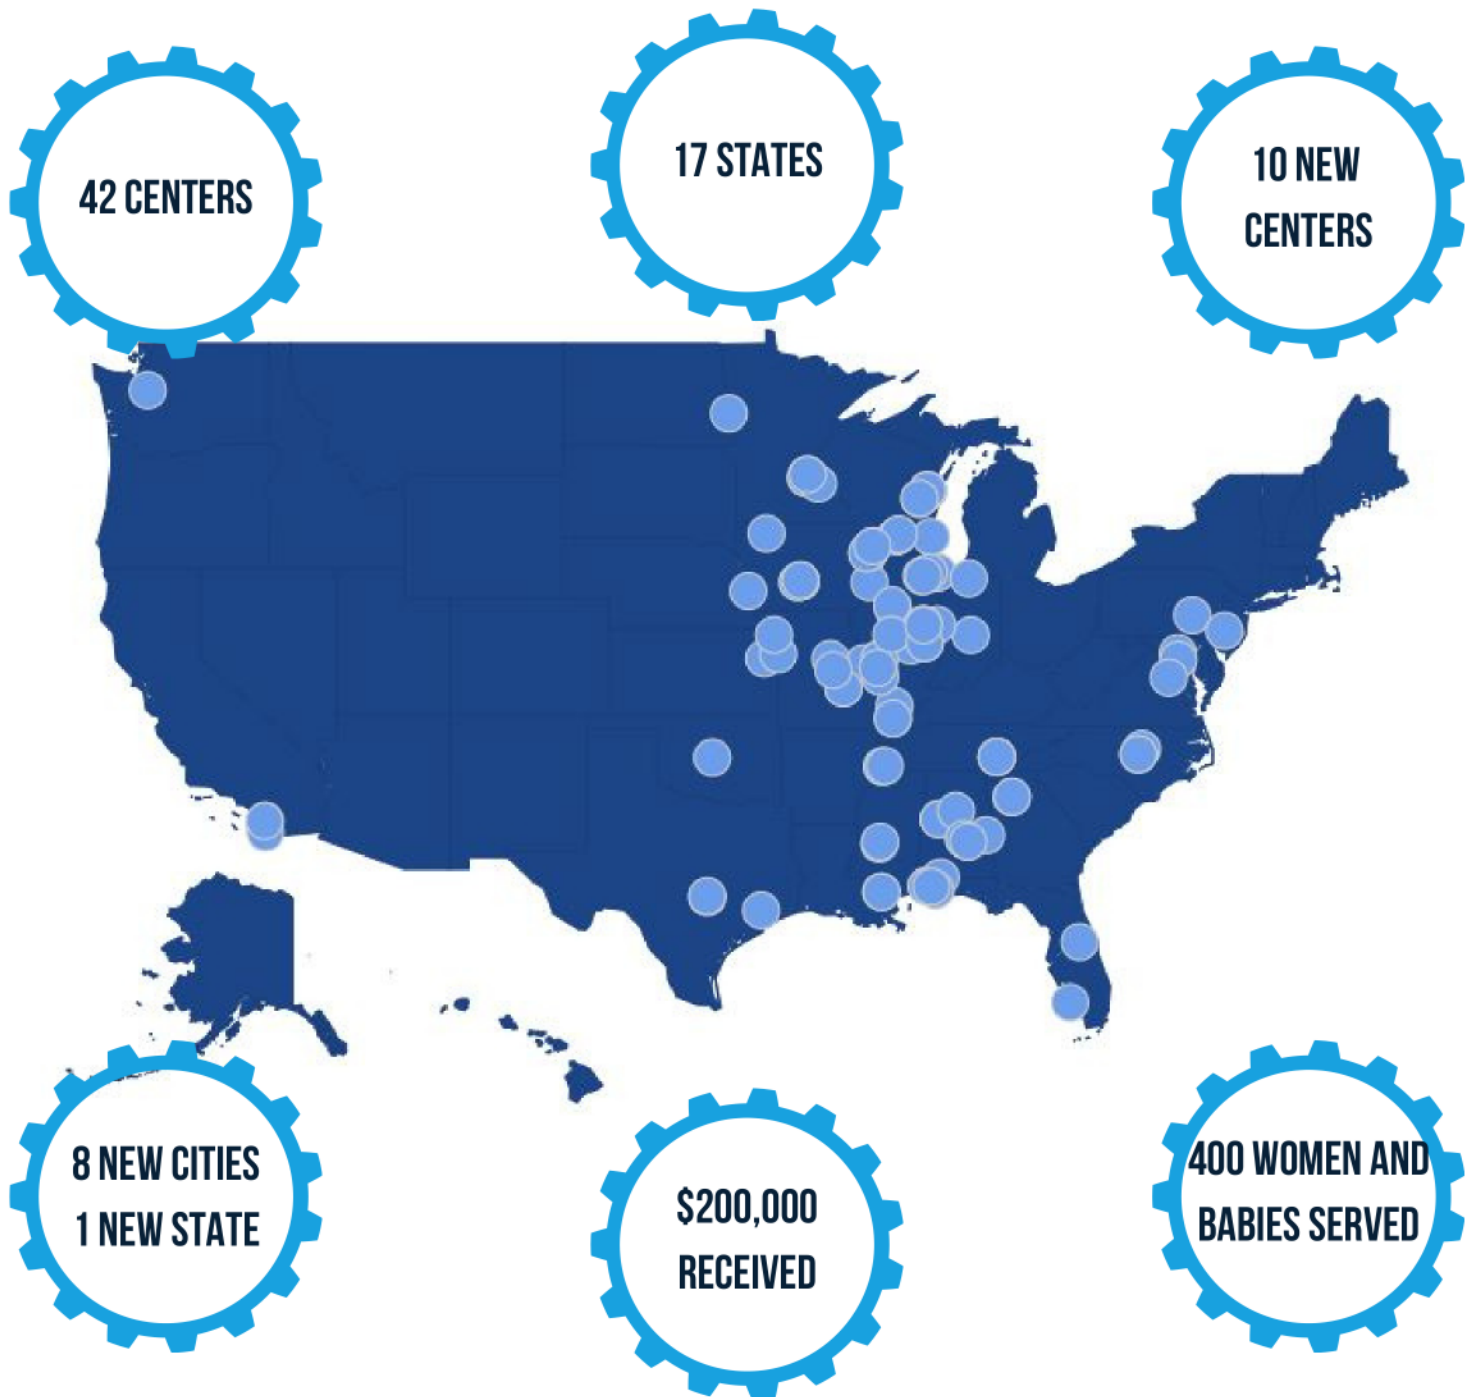

BABS SANDLIN

1st Year
Rider Missionary
From Madison, Wisconsin

I chose to ride with Biking for Babies because I believe **women deserve better than abortion**. I've been involved with the pro life movement for a while with volunteering at pregnancy resource centers (PRCs), the March for Life, clubs in college, etc. But when I heard about Biking for Babies, I knew it would be something special. I love how the organization gives directly to PRCs, which are at the front lines of the fight for life. **I've seen so many women helped by PRCs in my own community.** In my work as a labor & delivery nurse, I see just how much women need support, and I am heartbroken when I think of how many women and babies I don't get to meet because of abortion.

By participating in the National Ride, **you will learn how to suffer better.** Putting yourself through the suffering of the ride (or the craziness of support crew) is not easy. But you are not made for comfort, you are made for greatness! The ride took my every ounce of fortitude, and remembering the mission was the only thing that kept me pedaling. **What stopped me from quitting was that I had a reason to suffer.** My view of suffering has changed since the ride – **I more readily offer my sufferings for others,** and have seen the power of suffering for a worthy cause. "If you really want to love Jesus, first learn to suffer, because suffering teaches you to love" – St Gemma Galgani

SERVING WOMEN AND FAMILIES IN CRISIS

AGAPE, DES MOINES, IA
PARTNER SINCE 2011

Carley was born in a refugee camp. Looking up at the fences that surrounded her, she was reminded daily that she might not survive the night. Her family came to the United States when she was 9 hoping for a better life, and then her father died. Her mom had to work three jobs just to feed their family. By 12, Carley was taking care of her house and siblings...**alone.**

Carley never knew what parenting was supposed to look like so when she found out she was going to have a baby of her own she was scared. She knew she couldn't do it alone. She needed help...""

That is where Agape stepped in with the resources and help Carley needed to raise her baby... and look at her beautiful family pictured above! Thank you, Agape, for providing your life-affirming help to women like Carley so that they can say yes to life!

WALKING WITH FAMILIES

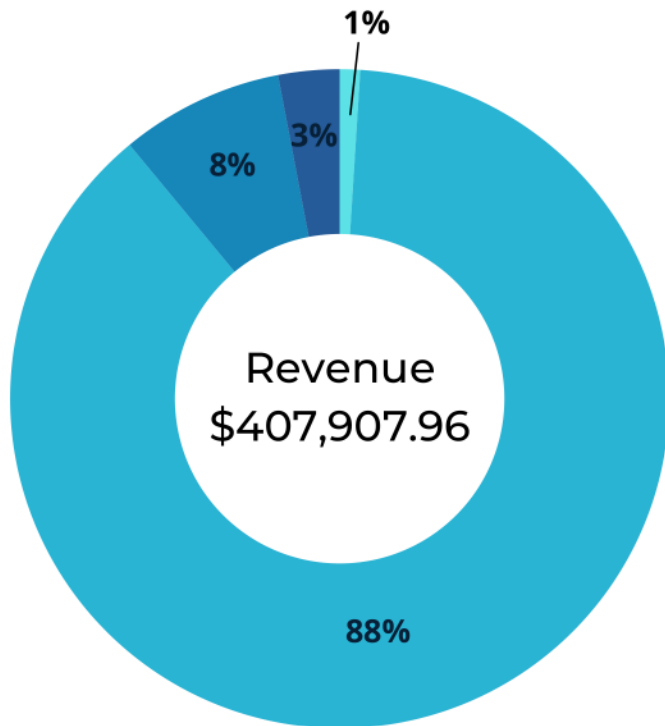

THRIVE, ST. LOUIS, MO
PARTNER SINCE 2020

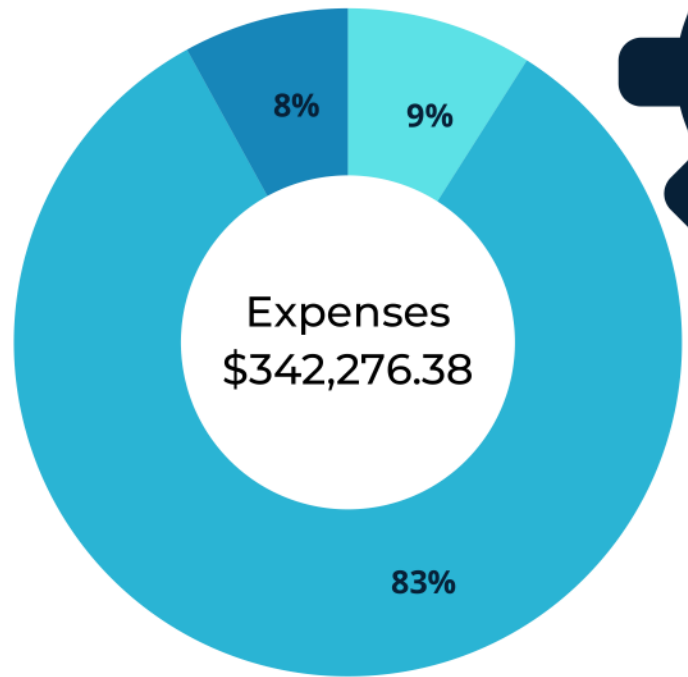

Jasmine's whole world changed when she suddenly, **unexpectedly, became a mom.** On a Wednesday morning at 5:53am, her daughter Jakobi was born and Jasmine did not have anything to take care of her child. A family member referred her to Thrive where she enrolled in the Parent University program where she was equipped with not only educational and practical resources, but a community. **"Thrive is my support team.** I have gained so many friends from 'Parent University.' And we celebrate each other. What I love about it is...It's like a sisterhood. It's all of us together as a family. And what I really, really, really love, is that Thrive has stuck with me...when I learned how to put a car seat in the car...when I had to learn how to do resumes."

Thrive also showed Jasmine the importance of spirituality: **"They taught me how to deepen my relationship with God to guide me as a mother.** Parenting does not come with a manual or instructions, but God can guide you and lead in the right direction with parenting. They taught me things about motherhood that I never knew or thought about, that allowed me to appreciate motherhood more than I ever thought I could. Sometimes being a mother can be challenging. You work, take care of your family, and make sure everything is correct before taking care of yourself. But You never know who God will put in your life to help you. Thrive was placed in my life, and I have been blessed beyond words."

2021 FINANCIAL STATEMENT
